

We Offer a Total Risk Management Solution

Designed with the direct objective of reducing insurance costs and quite possibly eliminating others.

Our Services, Simplified:

- ◆ Objective Data Collected BEFORE an injury occurs
- ◆ Data Assists in Determination of Compensability and the Extent of Disability
- ◆ Data Confirms Soft Tissue Injury to Guide Appropriate Treatment
- ◆ Prompt Retrieval and Utilization of Data WHEN an Accident Occurs
- ◆ Minimizes Future Fraudulent Claims

Total Risk Management Solution

Delivering Solutions to Address Compensability and Disability before an Injury Occurs

Take Control of Your Safety and Prevention Plan Now Rather Than at the Time of a Work Injury.

Total Risk Management Solution

- ⇒ Improves Hiring Process to Ensure Physically Capable Candidates can Safely Perform Job Duties
- ⇒ Reduces your Risk Modifier to Lower Insurance Premiums
- ⇒ Allows Control of Costs and Outcomes with Current/Past Claims
- ⇒ Updates (or Creates) your Modified Duty RTW Program
- ⇒ Proactively Addresses Ergonomic Safety Issues to Avoid Work Injuries
- ⇒ Eliminates Delays in Diagnosis of Soft Tissue Damage
- ⇒ Assists MD and PT in Development of Appropriate Treatment Plan Specific to the Soft Tissue Injury Location

Fully Scalable Solution

We work with business owners, insurance companies, TPA's and insurance brokers, to help reduce insurance costs and increase revenues.

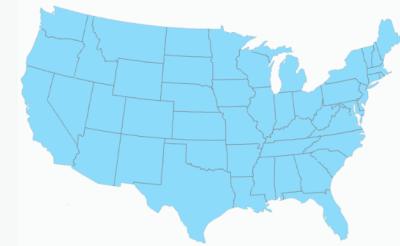

Our program assigns dedicated professionally trained staff to help you improve hiring processes, proactively prevent work injuries, and decrease lost time by assertively managing current and past work injury claims.

Results You Can't Ignore

Our Total Risk Management Solution (TRMS) is designed with the direct objective of reducing insurance costs and quite possibly eliminating others.

Locations and Credentials

We are licensed to provide services anywhere in the United States with OSHA Ergonomic, Certified Industrial Ergonomic (CIE), and Advanced Credentialed Registered Nurses.
